L. C. Furso, Jr.
Operations Control

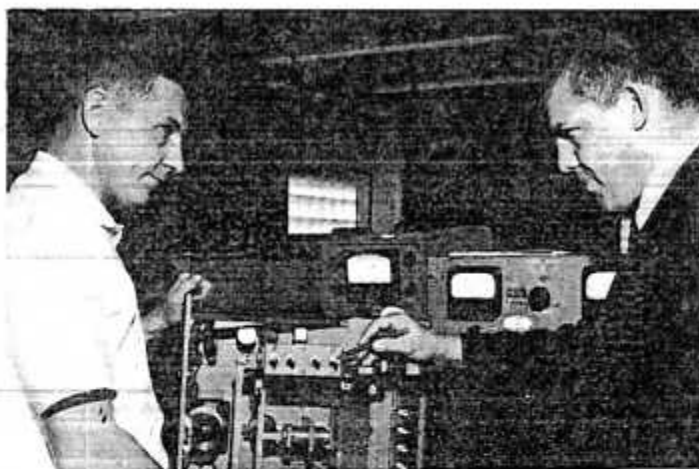

M. E. "Sully" Sullivan, Instrumentation Manager Norm Tucker and Don Proctor (left to right) relax on one of Pretoria's five golf courses.

above photo probably represents the first time all the current RCA downrange instrumentation managers have assembled in one place. The occasion is an IM conference at Antigua in September. From left to right are Dick Woody, Grand Turk; Don Akerberg, PAFB; Norm Tucker, Pretoria; Joe Petrone, Wonsan; Mike Kennedy, Eleuthera; Bill Kolter, PAFB; Andy Porter, Trinidad; Bud Creech, the Cays; Charlie Feast, Manager of MTP Data Acquisition; Don Gray, San Salvador; Len Mashburn, Grand Bahama Island; Don Gray, Antigua; and Ed Lauden, Manager of MTP Downrange Instrumentation. In the first photo on the right, Lauden presents station-of-the-month awards for May, July and August to Dick Woody of Grand Turk. Accepting the award for June in the other photo is Len Mashburn of Grand Bahama Island.

Frank Robinson (left) and Jim Harding, both lead technicians on the MTP ASSET program, confer at the X-band console on the Patrick AFB receiving site.

X. R. (Ken) Croyle (left), group leader on the MTP ASSET program, and D. E. (Doug) Price, project engineer.

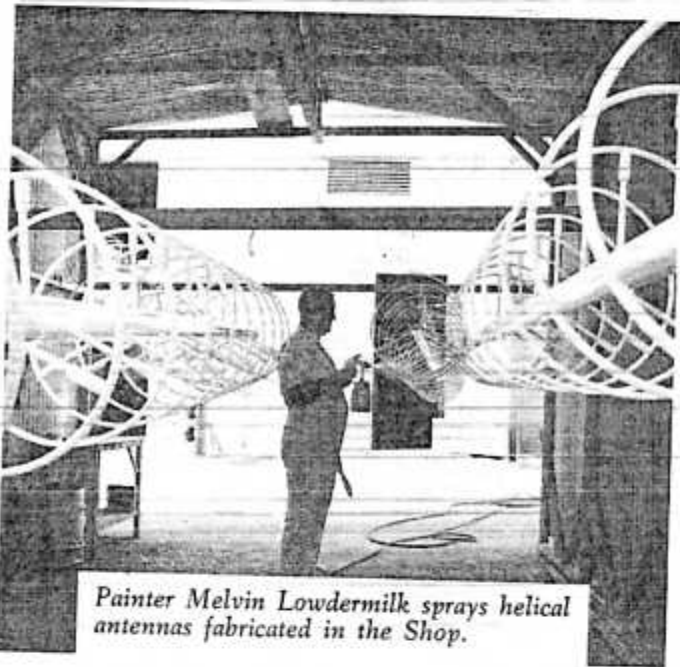

Maintenance Engineering

A typical ME skill center.

MTP NEWS 1964

ME artists Vic Craft (below), E. V. Tangen (center) and Herb Reinecke (right) produce detailed illustrations for range instrumentation maintenance manuals.

Painter Melvin Lowdermilk sprays helical antennas fabricated in the Shop.

Harry J. Bowes, shown above at his desk, celebrates his 20th year with RCA this month. Currently an engineer specializing in electronic data processing records in Mainland Communications, Harry joined the RCA Service Company in Camden in 1944 as a Field Engineer.
